

ULTIMATE

Seat Protection

Certified for Airbag Compliance

The Black Duck® SeatCovers range of airbag compatible seat covers are dynamically tested and certified to ensure Vehicle Standard Australian Design Rule 72/00 (Dynamic Side

Impact Occupant Protection 2005) is not adversely affected.

Retain full seat functionality

We currently have patterns to suit more than 1,700 individual vehicles and all patterns are tailored to fit each specific seat design. This ensures all safety features and functionality of the seat is retained, including armrests, cup holders, levers and adjusters.

Protect seats against wear and tear

We offer several material options to provide solutions for all applications and conditions to keep the original seat in pristine condition. The Black Duck® SeatCovers range includes covers designed to be hard wearing,

water resistant, tear resistant and offers superior protection for vehicles that experience heavy use.

OUR STORY

Black Duck® SeatCovers

Black Duck® SeatCovers is a family owned and operated Australian company that has been manufacturing high quality, tailored fit seat covers for a wide range of commercial vehicles including 4WD's, trucks, buses and earthmoving equipment since 1984.

We offer several material options to provide solutions for all applications and conditions to keep the original seat in pristine condition. The Black Duck® SeatCovers range includes seat covers designed to be hard wearing, water resistant, tear resistant and offers superior protection for vehicles that experience heavy use.

With manufacturing facilities across Australia and reliable freight partners, we can ensure timely supply of any size order to accommodate your fit-out schedule.
